

Cleaning your PartInspect L housing

How to effectively disinfect and clean your device with alcohol wipes

Material needed

Alcohol wipes
(70% isopropyl alcohol (IPA) | 30% deionised water)

Gloves

Preparation

- Switch off PartInspect L
- Unplug cables

Cleaning steps

Clean front panel buttons and wipe surfaces on housing that are touched by operators, particularly the touchscreen and door handles.

* Please see our *Cleaning your structured light scanner* info sheet for instructions on how to clean the scanner component of your PartInspect L system.

Wait 10 minutes before restarting the PartInspect L

Switch on

Do not clean with wipes!

Do not clean optical surfaces or interior parts with wipes.

consult user manual

Hexagon is a global leader in sensor, software and autonomous solutions. We are putting data to work to boost efficiency, productivity, and quality across industrial, manufacturing, infrastructure, safety, and mobility applications.

Our technologies are shaping urban and production ecosystems to become increasingly connected and autonomous – ensuring a scalable, sustainable future.

Hexagon's Manufacturing Intelligence division provides solutions that utilise data from design and engineering, production and metrology to make manufacturing smarter. For more information, visit hexagonmi.com.
